MATTHEW FOUTS

This is an **estimate** and it will expire in 30 days of this letter.

The scope of work will be to build approximately 4900ft of new overhead powerline from pole number F123 heading south. The transformer will be a 15kva 120/240v single phase for a 200amp service. This estimate does not include any costs or fees that could be incured for a R.O.W or easement for the new powerline that will be crossing a non member.

$66,779 is over our line extension policy maximum and is required **upfront**.

All power usage will be charged at the appropriate rate.

Material Total	$20,138
Labor Total	$37,842
Transportation Total	$6,699
Engineering Total	$2,100
R.O.W. Total	$0
Total Job Estimate	$66,779

Sincerely,

Jason Radinovich
